

Delicious **Coating Systems**

Create the perfect first impression with coating systems designed to deliver exceptional texture, visual appeal and eating quality. From light, crispy finishes to bold, crunchy coatings, our solutions help bring products to life.

NEWLY WEDS FOODS

inspiring new tastes

Coating Systems

Breaders

Dry coating blends that deliver texture, crunch and visual appeal, helping create a consistent, high-quality finish across fried and oven-cooked products.

Batters

Liquid coating systems designed to improve adhesion, enhance crispiness and provide the perfect base layer for breaded and coated foods.

Breadcrumbs

Available in a variety of textures, colours and particle sizes, breadcrumbs add crunch, visual appeal and a distinctive eating experience.

Predusts

Applied before battering, predusts improve coating adhesion, reduce moisture loss and help ensure process consistency throughout production.
